Measuring Techniques

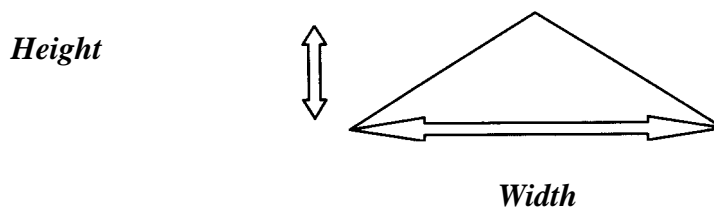

Strait Walls:

Width X Height (do not subtract for doors or windows less than 15 square feet.)

Gable Ends:

Width X Height Divided by 2

Tables for roof: Take the heated square footage of the blue prints or measure it and apply the following factors for pitch:

Pitch	Factor
1-3/12	1.25
4-6/12	1.40
7-9/12	1.50
9-12/12	1.60
12/12 & up	1.70
